

# Payment solutions for system integrator **eCommera**

---

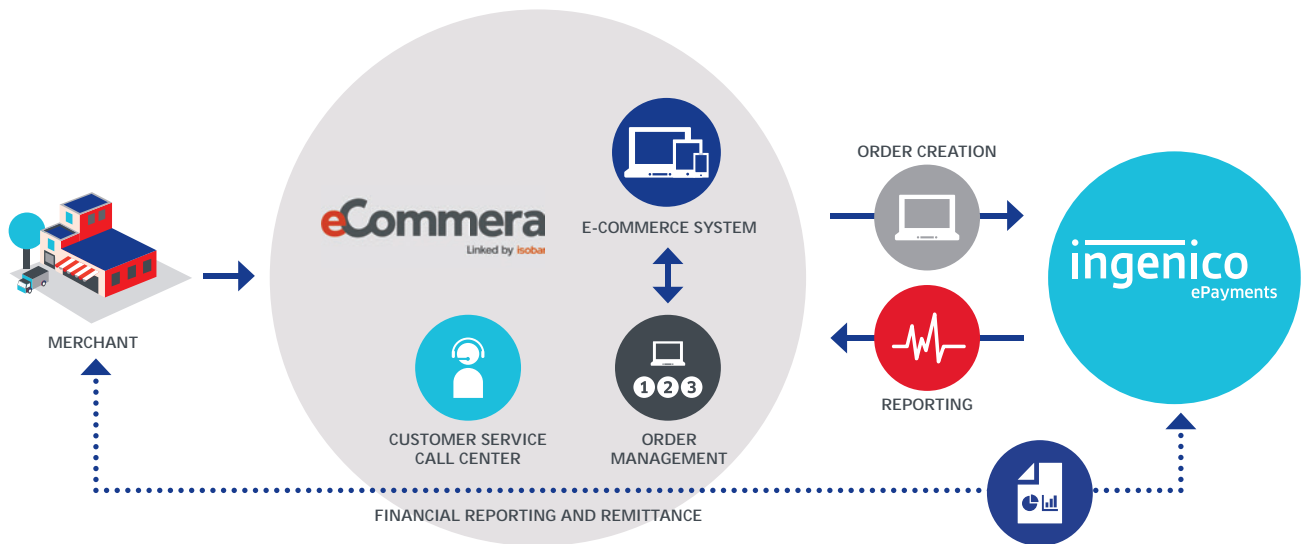

Create a global omni channel retail solution which is scalable, tried and tested by some of the largest retailers in the world. Combining knowledge and experience in localized sales channels with local payments

---

## About eCommera

eCommera, linked by Isobar, is a specialist commerce services business that provides retailers with a 'one stop shop' for expertise, technology and operational support. Having launched more than 170 e-commerce sites for over 25 brands across 33 markets, eCommera has recently joined Dentsu Aegis Network and continues to provide innovative multi-channel commerce services and platforms for major international brands and retailers, including Clarins, Jimmy Choo and Asda-Walmart.

### Integration

Based on a core solution, eCommera will develop tailor made extensions. Thus concentrating on the merchant specifics.

### Scalable and flexible

The solution is highly scalable due to the cloud based core code, and adjustable merchant specifics

### Implemented payment products:

- Visa
- Visa Electron
- MasterCard
- American Express
- JCB
- Maestro
- Discover
- PayPal
- iDeal
- Sofort Überweisung
- giropay

### Secure

The connection is based on you not having to be PCI secure. Besides that, it contains holistic fraud tools, 3-D Secure and IPID.

### Support & updates

You will take advantage of the knowledge of both Ingenico ePayments and eCommera to help you upgrade to stay up to date and add payment methods.

### Integrated features:

- 3-D Secure
- Fraud screening by Retail Decisions
- Fraud screen by Ingenico ePayments
- Direct or delayed settlement
- One-off and recurring payments
- Card on file/tokenization
- Full service reporting
- Hosted solution (outsource PCI scope)
- Non-hosted solution
- Customer service payment status update

eCommera checkout process is enriched with a payment product choice and the complete handling via Ingenico ePayments. This includes handling pending payments, fraud handling error handling. All major payment products are supported and ready to use. The system is setup to add new payment products into the solution quickly.

The payment status is automatically updated into the order management system, and shown in the customer service dashboard.
