

Best-In-Class Legal Solution

MOMENTUM
T E L E C O M

Momentum is a premier provider of Unified Communications and Collaboration solutions for law firms. Momentum delivers a mobile, flexible and reliable HD voice and video solution seamlessly integrated with productivity applications to help law firms increase billable hours and maximize efficiency.

Best-in-Class Solution Portfolio

Momentum, a pioneer of Unified Communications (UC), has integrated many best-in-class options into one of the most advanced telecommunications platforms available. Momentum gives law firms the power to effectively deliver their employee’s communications needs with security, reliability and analytics.

Large Enterprise (1000+ Users)

- ✓ Disparate systems due to M&A activity
- ✓ Difficulty tracking efficacy of marketing campaigns

SMB (10 to 250 Users)

- ✓ Multiple attorneys operating separately in one office space
- ✓ Business Continuity/Disaster Recovery concerns
- ✓ BYOD workforce without a mobility solution

Mid-Market (250 to 1000 Users)

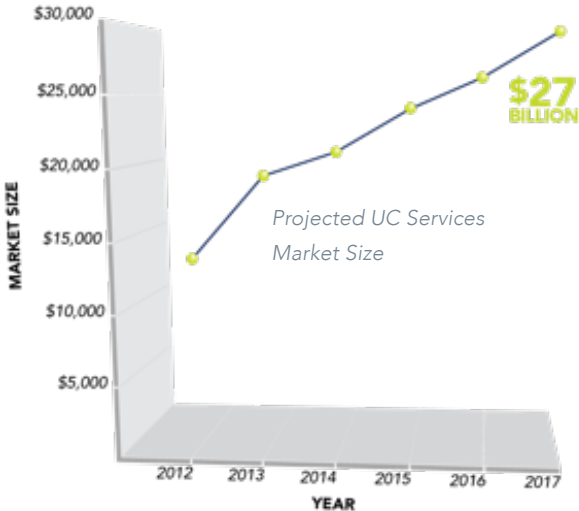

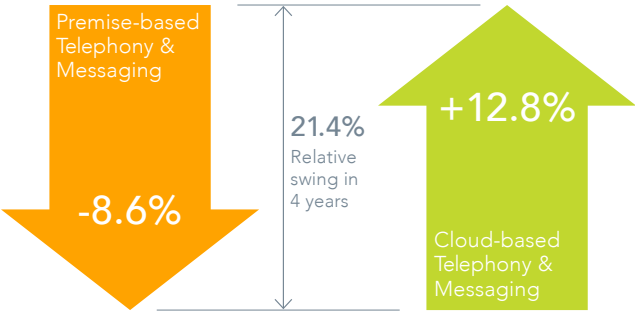

- ✓ Difficulty tracking client billing
- ✓ Cyber Security/Disaster Recovery concerns
- ✓ Inadequate conferencing solutions for depositions

CUSTOMERS ARE MOVING TO THE CLOUD, FAST

Users demand sticky, integrated, unified service, anywhere and on any device

IT needs a cloud-delivered solution

Buyers want a reliable provider with a proven track record

BENEFITS OF MOMENTUM TELECOM’S LEGAL SOLUTION

"Momentum has definitely helped us become more productive and efficient. Managing billable time is critical to the success of our firm, and Momentum's solutions have helped us stay connected and on the same page, no matter where we are."

– Kimmel & Silverman, PC

Best-In-Class Customer Experience

DAILY EXPERIENCE

Momentum Telecom can integrate a world-class communication solution with multiple systems into existing business productivity software to take advantage of time-saving applications and services.

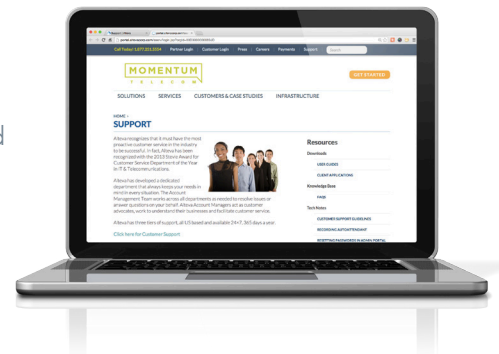

CUSTOMIZED IMPLEMENTATION AND TRAINING

Momentum Telecom has one of the largest concentrations of customer presence engineers, available to go on site, tailoring our solution to maximize quality on your network and LAN environment. We provide both on-site and web-based training through Momentum University which includes PowerPoint presentations, user guides, quick start guides and training videos.

AWARD-WINNING SERVICE & SUPPORT

Momentum Telecom is committed to delivering meaningful value to our customers through a reliable, high-quality and unified user experience. To consistently deliver on this commitment, Momentum uses a dedicated white-glove team at the Technical Assistance Center (TAC), solely focused on delivering a best-in-class customer experience. Momentum's support team strives to be providers of knowledge, services and tools that simplify communications and enable business productivity.

SECURE, RELIABLE NETWORK:

Momentum Telecom's platform is comprised of several carrier-class data centers and self-healing fiber optic ring networks. It has multiple layers of redundancy — enabling maximum uptime and continuous operation. To dramatically reduce latency and offer network flexibility, Momentum offers Points of Presence on a worldwide fiber backbone.
