

EXPENSE for Nonprofits and NGOs

Get Control of your Expenses and Reimbursements.

Chrome River has a unique and deep understanding of expense management and the nuances involved with the day-to-day processes of tracking spend and managing budgets. The Chrome River Suite was designed to be exceptionally easy to use for your employees, yet powerful and flexible enough to manage even the most demanding expense policies. Our solutions allow your employees to focus on the job at hand, while ensuring that expenses are properly allocated and tracked against project codes, grants, programs, departments and budgets. Chrome River lets business flow, which makes AP departments happy.

Why act now?

We understand that economic conditions are always a factor and budgets remain tighter than ever. Join the many organizations that have already reported a significant return on investment (ROI) from implementing Chrome River automated expense report and reimbursement software. What contributes to the ROI? Savings from efficiency gains, increased compliance with expense policies, cost avoidance as a result of a formal preapproval process with specific funding source policy enforcement. Chrome River's easy to use interface and expense report benefits have created an increase in employee satisfaction and improved perception of the Finance department.

How do we help?

- The industry's easiest-to-use interface
- Browser, e-mail and mobile enabled
- Pre-trip authorizations for all expense types

- Split expense handling
- Policy enforcement and audit
- Non-employee expense management
- Pre-trip authorizations
- Full encumbrance capabilities by funding source
- Integration with SAP, PeopleSoft, Blackbaud, Microsoft Dynamics and many other systems of record

The Chrome River advantage

Easy Expense Allocation. Users simply type in a portion of the grant name, program code, grant, cost center name, project, or other allocation criteria and our intuitive Allocation Selector does the rest. No other solution provides this ease of use while ensuring proper allocation of your expenses.

Split Expense Handling. The Allocation Selector allows for expense entries to be easily split to multiple grants or cost centers by amount or percentage, including unique descriptions for each portion of the split expense.

Policy Enforcement Benefits. A powerful, industry-leading rules engine manages and enforces expense policies across the entire organization. Unlike any other system on the market today, rules can be quickly and easily changed at any time, even daily, using an ingenious Microsoft Excel template.

Automated Routing in Organizational Matrices. Chrome River accommodates the industry's most sophisticated routing and approval review requirements. Routing can be automatically controlled at the line item or report level based on your organization's preference. Internal expense and external/grant policies and can be processed independently rather than being bound together within an expense report. Manual routing decisions are also accommodated, allowing users to send expenses directly to specified approvers.

Mobile Expense Management. Chrome River is a fast, fluid, mobile web solution that is built on HTML 5 and Responsive Web Design (RWD) technology, offering global organizations the latest in travel and expense management. Chrome River delivers the same user experience across all devices regardless of size or shape and provides a fast and easy way for users who are on the go to enter and approve expenses as well as approve vendor invoices on the fly with any device.

Who's using Chrome River?

Chrome River currently has more than 450 customers and 1,000,000 users worldwide. Our ever-growing group of Nonprofit and NGO customers includes organizations such as the Brookings Institution, the American Bar Association and Share Our Strength.
