Innovation for the Enterprise

IT consulting that advances your business in a digital world

V-SOFT CONSULTING

Business Solutions ■ Solving IT Challenges

With a focus on driving smart solutions for the enterprise, V-Soft Consulting provides first-class IT solutions that transform how IT gets done. From the cloud to mobile applications to custom development, V-Soft has a proven delivery record that is trusted by business leaders.

IT Outsourcing ■ Development

Unlike most conventional development companies, V-Soft has exceptional in-house talent complimented by on-demand talent availability through our IT staffing division. V-Soft clients have grown to expect **best-of-industry results** across diverse technology stacks.

- **App Development**   .Net, JAVA, PHP, MySQL, Ruby on Rails, SharePoint
- **Cloud Computing**   ServiceNow, MuleSoft, Salesforce, Microsoft Azure, AWS
- **Mobile Applications** Native Apps (iOS, Android), Responsive

We leverage Agile methodologies to rapidly deliver on time and on budget. To ensure success we assemble a cross-functional team and apply a rigorous process to develop new applications, as well as integrate newly created functionality into existing applications. **CEOs, CIOs, and IT Managers alike appreciate V-Soft's complete transparency and innovative approach to projects and initiatives.**
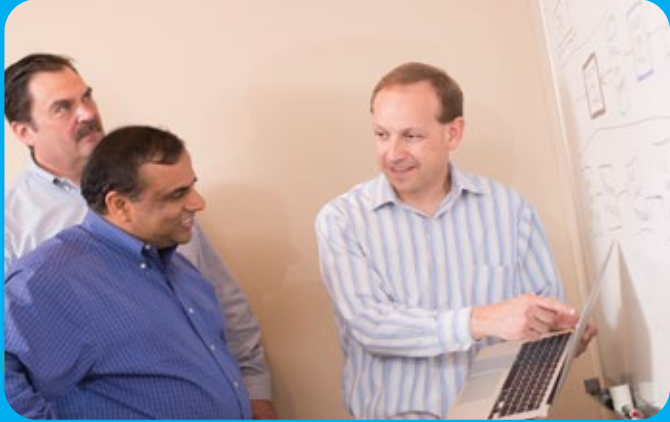

"Too many vendors underestimate the complexity of our business. That's not V-Soft. They are willing to learn our business and understand our challenges."

- VP of Information Technology

Expertise ■ Methodical Project Management

V-Soft's agile project approach adapts to your needs, and expertise levels exceed expectations. Combined with the complete transparency your projects demand, V-Soft is the choice for on-time delivery and on-budget IT solutions.

Compelling Value Proposition

- Experienced across diverse technology stacks
- **Hybrid sourcing** model that budgets require
- Real-time access to all project contributors
- **Transparency** in all facets of the project
- **Agile** management that adapts to your needs
- Deep expertise with leading platforms in .Net, JAVA, ServiceNow, MuleSoft, and more

"V-Soft provides excellent customer service and has a true desire to understand the role and the business problem we are trying to solve."

- Shelly S., Director of Vendor Management

IT Staffing ■ Direct Placement

Tired of seeing empty chairs in your IT area?
For over 17 years V-Soft has been trusted to deliver candidates that go beyond technical expertise needs and meet demanding budgets.

The V-Soft Difference
- "Spotlight Call" process focuses on your needs
- It's not about resumes, but **finding the right match**
- Experienced senior recruiters *get* your expectations
- Recruiting beyond the work day brings better results
