## LED LIGHTING HELPS SHOP OWNER SAVE MONEY AND ENERGY

Lenora Burton, owner of The Country Goose, always looks for ways to cut costs so she can reinvest and grow her business. When she heard about the Central Hudson Commercial Energy Efficiency Program, she saw a great opportunity to improve the look of her store and save money.

As part of the program, Central Hudson paid \$1,996 to upgrade outdated, incandescent lamps with new LED technology. "In the first 3 months after my lighting upgrade, I saw substantial savings in my electric bill," said Lenora. "With these savings, I was able to advertise more and bring in new product lines into my store for my customers."

*"My shop is so much brighter now and my out-of-pocket costs were minimal. Central Hudson and Lime Energy are making it easy for small business owners like me to save money every month."  
- Lenora Burton*

Over 3,000 Hudson Valley businesses like The Country Goose have taken advantage of Central Hudson's Commercial Energy Efficiency Program, which pays up to 70 percent of the total project cost to replace old, outdated lighting with modern, energy-efficient lighting. "The installation process was great, they came in and within 25 minutes they were done, with no disruption," Lenora added. "My shop is so much brighter now and my out-of-pocket costs were minimal. Central Hudson and Lime Energy are making it easy for small business owners like me to save money every month."
