DYNTEK
DYNAMIC TECHNOLOGY SOLUTIONS

More than a business. More than a job. A passion.

Microsoft:
Your Platform for Cloud-Enabled Education

Building a better student

Within the education sector, having the tools to communicate and collaborate doesn't build a better business – it builds a better student. Technology is pervasive in the learning process – from classrooms to labs to administration to home – and is key to elevating the type of education we deliver to our students to help them prepare for a brighter future. From the cloud to the classroom, DynTek and Microsoft are committed to equipping schools for 21st Century Learning opportunities.

DynTek, a Microsoft National Systems Integrator and Microsoft Public Sector, Education Partner of the Year, has extensive experience helping K-12 institutions manage student information, improve their IT infrastructure, secure their environment, enhance communication and collaboration and meet reporting requirements.

Microsoft Partner
2013 Partner of the Year Winner
Public Sector: Education

Windows Server · Microsoft SQL Server · Lync · Office 365 · Windows Azure · Windows 8.1 · SharePoint · PERCEPTIVE PIXEL · Windows Intune · Microsoft System Center · Exchange · Surface

Through our unique immersive experiences, DynTek and Microsoft can demonstrate a broad range of solutions that support the student, teacher, administrator and IT staff.

For teachers & administration, we will showcase:
- Rich curriculum examples that demonstrate how technology can enhance teaching, learning, and assessment for students
- How technology and devices enable consumption, creation, and collaboration for students, educators, and parents
- How different devices can bring learning to life in a range of scenarios
- How students can continue learning where they left off – at home, in the library, or anywhere
- How students can organize their learning, take notes, and become highly efficient in the way they study
- Where to get free tools that spark imagination and inspire learning

For the IT Team, we will showcase:
- How Microsoft delivers on device innovation, cloud, social and IT visibility and control
- Communication and collaboration strategies
- Web portals
- Mobile Device Management "MDM" and traditional endpoint management
- Server and cloud platform for IT efficiency
- Multi-modal, multi-literate, multi-tasking-pervasive access to technology

DynTek offers Proof-of-Concepts and Production Deployments for:
- Hybrid Cloud Environments incorporating Windows Server 2012 R2 (Hyper-V), System Center 2012 R2, Azure, StorSimple and more
- XP to Windows 7/8 Migration
- Lync 2013 for Audio/Video Conferencing and Voice
- Client Management and Security Solutions
- Office 365 and Windows Intune

In the course of these consulting engagements, DynTek's certified Microsoft engineers will provide a comprehensive overview of the specified Microsoft product stack; review your organization's current environment; map solutions to your business needs; and create a Proof-of-Concept or Production Deployment.

DynTek -- Microsoft Platform Solutions

DynTek has developed industry based methodologies to address the Analysis, Design, Proof-of-Concept, Project Planning, Full Scale Deployment and Operations of a broad range of Microsoft® based solutions. We create solutions that focus on helping our customers realize the greatest value from their existing Microsoft software investment.

For more information on an Immersion Briefing, Proof-of-Concept or Production Deployment, please contact marketing@dyntek.com or 877-297-3723.
