

Pyramid simplifies operations of a reputed insurance provider

Objective

The client wanted to simplify its working methodology and enhance the overall efficiency. To do this it approached Pyramid to get a new enterprise application developed and sought 24x7 support on applications already developed.

Challenges

- ▶ The challenge was to integrate and provide a system for analyzing the cash flow operations across district/field offices through consolidation and centralization of existing infrastructure
- ▶ AD hoc reporting and value analysis to be made available on demand for key business stake holders
- ▶ Reporting information to be spread across numerous heterogeneous applications with limited access

Approach

Using the latest technologies, Pyramid worked towards development and enhancement of existing applications. It also worked to make the applications simpler and more user-friendly.

Business Benefits

Pyramid's experienced team developed new applications; provided production support on existing applications and enabled the client to migrate to new technology platforms.

Industry Segment

Insurance

Customer Profile

The client is a leading name in the world of insurance industry. It has three subsidiaries, catering to the well-defined specialty markets of life, health, property, and casualty insurance. The product line includes life Insurance, customer profile, senior health insurance products, family plans, retirement plans, supplemental health products, worksite (payroll deduction) products.
