

State-of-the-art application to enhance efficiency quotient of medico-legal professionals

Objective

Client's existing Document Management System was developed in classic ASP code and was not compatible with IE9. Maintenance and enhancement of the application was also required along with creation of an online appointment booking module for suppliers.

Challenges

- ▶ Configuring the Document Management System (DMS) application on Cloud
- ▶ To provide permission to users via Active Directory over the Cloud
- ▶ Configuration and synchronization of the developed application with Mobile apps, Google and Yahoo Calendar

Approach

Pyramid leveraged its high-end expertise in Microsoft technologies to create, enhance and maintain the Document Management software. At the same instance, Pyramid also made the effort of addressing a wide range of browser compatibility issues.

Business Benefits

- ▶ Application developed by Pyramid enabled in integration of Docslot with Dynamic GP (Great Plains) – a renowned financial tool
- ▶ Customized documentation management application developed and implemented by Pyramid enabled client to cut down on manual and tedious documentation procedures

Industry Segment

Healthcare Insurance

Customer Profile

The client is a leading UK Medico-Legal Company providing solicitors and insurance companies with expert (medical) witnesses (often independent as required) who conduct medical and rehabilitation consultations to support/verify personal injury claims.

Technology and Tools

- ▶ .Net
- ▶ PHP
- ▶ My SQL
- ▶ SQL Server 2008

Solution Highlights

- ▶ Maintenance and Enhancement of Document Management Software
- ▶ Development of iWorks – Online Appointment Booking Diary facilitating booking and management of medico-legal appointments for insurance and medical experts. For reducing administrative time and costs.
- ▶ Production support on all releases

Related Solutions

- ▶ Application Development, Design and Implementation
- ▶ Systems Integration and Consolidation
- ▶ Support, Maintenance, Re-engineering and Performance tuning
- ▶ Feasibility and Requirement Analysis for business scenarios
