# Algorithm Hosted Solutions

*Hosted Macola at your company or in our data center – same great service – one low price.*

Algorithm is pleased to announce *hosted* and *self-hosted* Macola solutions. With Algorithm Hosted Solutions, you have the benefit of years of IT experience combined with the latest technology to produce a unified solution for all of your Exact products.

## Algorithm Hosted FAQ:

### What is Hosted Macola?

Hosted Macola is a new total-managed technology option for small and medium-sized organizations. Think of it as a technology cooperative (CO-OP). Instead of organizations purchasing their own servers, applications, licenses, and hiring expensive support staff, the companies subscribe to Algorithm Hosted Services. They share the infrastructure while maintaining complete and secure separation of their information. Perhaps you've heard the term "Application Service Provider" or ASP – *that's Algorithm!*

### Why Hosted Macola?

Get access to your applications with quick implementation times at a low, predictable monthly fee. The programs reside on secure, state-of-the-art servers: Algorithm Network Services is responsible for maintaining and updating the platform and managing the network, and providing round-the-clock reliable access to your applications.

### Who Should Use Hosted Macola?

Hosted Macola services are ideal for small to medium sized businesses. You understand that technology can support and enhance your operations but it is not your core competency. We focus on the technology so you can focus on your business.

*Algorithm has served small businesses and midsize enterprises since 1993*

## What are the major benefits of subscribing to Algorithm Hosted Solutions?

- **Secure remote access to Macola from anywhere:** PC or Mac, iPad or iPhone. Macola is now platform independent
- **Costs:** Low monthly subscription fees vs. large upgrade or new installation costs
- **Expert data center staff:** Algorithm Network Services is focused on your business by providing technology experts 24/7.
- **Latest software:** available with software version updates included in subscription
- **Secure:** State-of-the-art Firewall Security, Virus Protection and data backups
- **Rapid Deployment:** New installations are typically setup and running in less than 7 days

### Self-Hosted FAQ:

## What is Self-Hosted Macola?

Self-Hosted Macola is an onsite option for companies that require Macola to be housed within the premises of the organization. Same pricing structure and worry-free management - only at your location.

## What are the major benefits of subscribing to Algorithm Self-Hosted Solutions?

- **Costs:** Low monthly subscription fees vs. large upgrade or new installation costs
- **Expert Algorithm staff:** Algorithm Network Services is focused on your business by providing technology experts 24/7 through remote access to you.
- **Right-sized equipment – delivered:** For the low monthly subscription fee, Algorithm Network Services will provide hardware matching your company's requirements.
- **Secure:** State-of-the-art Firewall Security, Virus Protection and data backups
- **Rapid Deployment:** New installations are typically setup and running in less than 7 days
