FOR IMMEDIATE RELEASE

Tabush Group Recognized for Excellence in Managed IT Services

New York, NY, February 18, 2016 – Tabush Group, a cloud computing, technology solutions, and IT services company, announced today that CRN[®], a brand of The Channel Company, has named Tabush Group to its 2016 Managed Service Provider (MSP) 500 list in the Elite 150 category. The Elite 150 recognizes large, data center-focused MSPs with a strong mix of on-premises and off-premises services. This annual list recognizes North American solution providers with cutting-edge approaches to delivering managed services. Their top-notch offerings help companies navigate the complex and ever-changing landscape of IT, improve operational efficiencies, and maximize their return on IT investments.

In today's fast-paced business environments, MSPs play an important role in helping companies leverage new technologies without straining their budgets or losing focus on their core business. CRN's MSP 500 list shines a light on the most forward-thinking and innovative of these key organizations.

Tabush recently developed a new all-in-one cloud solution called Boxtop[™], which delivers all of a company's IT needs as a simple, secure, and scalable service, allowing small business owners to focus on growing their companies. Boxtop[™] includes virtual desktops accessible securely from anywhere, at any time, on any kind of device, a fully managed cloud infrastructure network, storage, backups, security, and unlimited support.

"MSPs meet a critical need in the IT market, providing customized, turnkey services that allow for predictable operational expenses, effective control of expenditures, precise allocation of limited resources and convenient access to on-demand and pay-as-you-go technology," said Robert Faletta, CEO, The Channel Company. "We congratulate the service providers of the MSP 500, who continually reinvent themselves to successfully meet their customers' changing needs, helping businesses get the most out of their IT investments and sharpen their competitive edge."

"It's an honor to be recognized in the Elite 150 category of top 500 MSPs," said Morris Tabush, Founder and President of Tabush Group. "At the core of everything we do is providing outstanding services to our clients and pro-actively managing their IT. We allow business owners to focus on their business, not their IT."

The MSP 500 list will be featured in the February 2016 issue of CRN and online at www.CRN.com/msp500.

About Tabush Group

Tabush Group is a leading provider of virtual workspace, private cloud, and managed IT services that specializes in technology solutions for small to midsize businesses in the fields of law, real estate, construction, investment management, and professional services. Our mission is to help organizations succeed through our passion and experience. Building upon that experience, Tabush recently developed a new all-in-one cloud solution called Boxtop[™], which delivers all of a company's IT needs as a simple, secure, and scalable service, allowing small business owners to focus on growing their companies.

Boxtop™ includes virtual desktops, cloud infrastructure, storage, backups, security, and unlimited support. Founded in 2000, Tabush is a privately held company headquartered in New York City, with data centers located in New York, Ohio, and Washington. Additional information about Tabush and its services can be found at www.tabush.com, and additional information about Boxtop™ can be found at www.goboxtop.com.
