PROJECT MANAGER

- **Corporate Real Estate and Interior Architecture Services Sector**
- **Project Management**
- **Be part of our growth and success**
- **Work with leading corporate organisations**

PCG is a national provider of integrated property and workplace solutions to Australian business, servicing the entire lifecycle of a project from needs analysis, property strategy, , design and documentation, project and construction management

Our success is based on our independence and a unique ability to partner clients through an 'end to end' service capability. We are seeking a motivated and talented project manager to join our team in the next 2-3 months . The successful applicant will have a demonstrable track record of achievement in the delivery of interior and building refurbishment projects.

Ideally you will be client focused and possess a strong understanding of project management and construction fundamentals. Your role at PCG will require the ability work autonomously in managing a team of consultants and sub contractors. It would also include management of the design phase, estimation of project costs / value engineering, and programming of work.

You will have at minimum of 10 years experience in the commercial field and be familiar with local building codes and standards. In return for your unique mix of strategic, practical and relationship management expertise you will be offered a progressive work environment that welcomes you as a key member of a highly successful multi-discipline team.

A competitive remuneration package is on offer.

Applications to be made in strict confidence to Simon Gunnis via careers@pcg.com.au.
