Use with Holganix Bloom, Holganix Grow and/or Holganix Flower for Optimal Results

Mixing Instructions:

Upon installation, utilize Bloom at a rate of 10oz. per 1,000 square feet.

Combine 2.25 gallons of Holganix Bloom with 200 gallons of water to then be applied at 7 gallons of mixture per 1,000 square feet.

To aid with watering and subsequent feedings, utilize Holganix Bloom at a rate of 3.33 oz per 1,000 square feet. Combine 0.75 gallons of Holganix Bloom with 200 gallons of water to then be applied at a rate of 7 gallons of mixture per 1,000 square feet.

*Optional additional fertilization may be utilized at a rate of 1/8th pound of nitrogen per 1,000 square feet. Either a 20-20-20 or a 30-0-0 would make great choices.

Bloom Instructions:

Keep refrigerated between 33°F and 44°F (Holganix Bloom can be stored at room temp for up to 36 hours). Once Bloom is mixed with water, the mixture must be used within 14 hours or aeration is required. Holganix Bloom may be aerated for 30 days. For boom application: flood jet nozzles recommended.
