## ADVANCED INDUSTRIAL MEASUREMENT SYSTEMS

Fall 2015 Newsletter

### The Revolution® is Here

AIMS is proud to announce that our first Revolution® HB Shop Floor CMM – the 5.9.4 – is finished and completely assembled. This past summer has been a busy one, preparing part of our facility for the manufacturing of Revolution® parts, and for a few future tool and die machinists. Over the last few weeks, our service technicians have been making and assembling the Revolution®'s x, y, and z axes to

be completed before the polymer-cast base shipped in... and just in time for the first show on our long to-do list.

### It's Showtime For the Revolution®

This beautiful fall season for us will be jam packed with manufacturing shows to attend. The Westec Show in LA kicked it all off last week in September, now with a shortly following Gosiger Open House in Dayton this week on the 23<sup>rd</sup> and 24<sup>th</sup>. On October 6<sup>th</sup> through the 8<sup>th</sup>, the Wisconsin Show in Milwaukee will be here sooner than we know it, with the 21<sup>st</sup> and 22<sup>nd</sup> bringing with it the Dayton AMTS Show, shortly followed by the Detroit Gear Expo on October 20<sup>th</sup> – 22<sup>nd</sup>. The brand new Quality Show in Rosemont, Illinois, on October 27<sup>th</sup> through the 29<sup>th</sup> will be next,

and on that same date, the MAZAK Open House in Cincinnati will take place.

Getting to the coming season, the MAZAK Open House will again take place again on November 3<sup>rd</sup> through the 5<sup>th</sup>, and December will hold in store for us the Performance Racing Industry in Indianapolis on the 10<sup>th</sup> through the 12<sup>th</sup>. The Revolution® 5.9.4 will be the centerpiece in all these upcoming shows, and we can't wait to demonstrate what it can do!

## More News

Furthermore, AIMS has also recently hired on another field service technician based out of Louisiana. Now, we will be able to better help those of the South much more easily without the delay of long, extended flights.
