

# Optovue Performance Protection Plan

Thank you for choosing an Optovue instrument for your practice. Perhaps one of the reasons you did so was that it comes with industry-leading customer service and support—including phone and online support at no additional cost for five (5) years from new system installation.

To further secure your investment, consider the Optovue Performance Protection Plan. It provides extended coverage for users seeking:

- Maximum uptime
- To avoid “surprise” service bills
- Finely tuned performance and functionality
- Greater peace of mind

## Optovue Performance Protection Plan Features

### Parts and Service

You get full coverage for all onsite service, replacement parts and shipping costs for getting parts to your practice.

### Periodic Maintenance

You'll receive one preventative maintenance visit per year. Just contact Optovue to schedule your annual visit.

### Remote Support

You receive unlimited phone and online support. Simply provide internet access so the Optovue Technical Support Team can remotely access your instrument.

### Software Updates

Regular software updates are provided to keep your technology current and secure.\*

### Flexible Timespan

Plan pricing is annual, so you can buy increments of anywhere from 1 to 5 years. This not only allows you to lock in the current pricing, but also to access discounts for multiyear agreements.

## Optovue Performance Protection Plan Annual Pricing

**Avanti**® \$4000/year

**iFusion**® \$3,000/year

**iVue**® \$2,800/year

**iScan**® \$2,800/year

**iCam**® \$800/year
