

DESIGN-BUILD DELIVERY - EDUCATION AND TRAINING SESSIONS for Water and Wastewater Infrastructure Projects

Our goal is to equip officials, managers and staff of municipal, private, and governmental organizations with the essential knowledge they need to use in planning for, procuring and managing various design-build projects for the water and wastewater infrastructure.

Session Topics

- Design-Build Delivery Methods for Water Infrastructure Projects
- Organizational Readiness for Design-Build Projects
- Risk, Liability and Contracting for Design-Build Water Infrastructure Projects
- Procurement Methods for Design-Build Water Infrastructure Projects
- Managing the Transition and Commissioning Process for Design-Build Water Infrastructure Projects

A “NEW” Workshop – Planning, Procurement and Managing a Design-Build Project

Sessions Length - Either a four or six hour program (can be expanded depending upon project or needs) A good class size is 12-20 attendees with representation of procurement, legal and operations and maintenance. We encourage inviting other agencies and public officials that could be involved in either the current or future projects to attend your session.

WDBC Programs

- Produced with the input of utility and agency managers throughout the US, who have told us “what they need to know” in order to be prepared to handle both regular and emergency issues related to water infrastructure projects.
- Participants receive (and use) the WDBC Municipal Water and Wastewater Design-Build Handbook and additional handout materials
- A pre-session questionnaire is used to guide the session, and achieve participant learning objectives
- A CEU certificate issued to attendees who complete a short 10 question multiple-choice test.

Session Instructors

Experienced practitioners, who provide first-hand knowledge and experience with effectively accomplishing a design-build water infrastructure project

Host Responsibilities

- Provides room, attendees, any needed refreshments and AV equipment
- Reimbursement of travel and lodging costs of one or two trainers

Arrangements for an education session are made through the WDBC Office by contacting Linda Hanifin Bonner, PH.D., CAE, WDBC Executive Manager
