

OUTPLACEMENT AND REDEPLOYMENT

SOLUTIONS FOR TODAY'S OIL AND
GAS INDUSTRY TRANSITIONS

CHALLENGES FACING THE OIL & GAS INDUSTRY:

For every **\$10** drop in oil, large oil companies each stand to lose

\$4.5
BILLION

in revenue per year³

The Great Crew Change:

There is a **20 year** hiring gap in the oil and gas industry.⁶

71% 

of oil and gas talent is over the age of 50⁷

Oil prices dropped by almost

55%

as of December 2014⁴

Economists suggest that the oil and gas industry could **lose 40,000 jobs in 2015** (and **6,000** in oil and gas equipment manufacturing)⁵

You wouldn't put your equipment in the hands of an inexperienced or unqualified worker. Neither would you make critical drilling, transportation, nor production decisions based on anything but the latest trends, business drivers, or regulations. So why trust your workforce restructuring to anyone but the experts?

After the last recession, the oil and gas industry added jobs at 10 times the rate of employment.¹ However, as crude oil prices fall to their lowest rate in 5 years, the effects of these price changes could lead to difficult decisions. Cost reduction, downsizing, and mergers are already leading to the loss of thousands of jobs now. At the same time, "The Great Crew Change" has created a hiring gap that will affect your ability to fill roles when oil prices stabilize by 2016 (as has been suggested by certain analysts)². The most effective way to protect your current employees as they transition out of your company (and perhaps the industry) while remaining an employer of choice is to partner with an outplacement provider that truly understands how to support and transition oil and gas talent with efficiency and care.
