## CHALLENGES FACING THE TECHNOLOGY INDUSTRY:

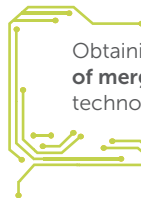

1.8

**million jobs** are predicted to be replaced by artificial intelligence (AI) before 2020 <sup>(1)</sup>

13%

**technology industry** turnover rate ranks the highest among all business sectors <sup>(2)</sup>

Obtaining new technology is the **#1 driver of mergers and acquisitions** in the technology sector <sup>(3)</sup>

**You wouldn't release untested hardware or software, nor would you create products without input from your top performers, so why trust your talent mobility and outplacement needs to anyone but the experts?**

It's a great time to be in tech—if your talent can handle the volatility. Shifts in the industry have created the need for both job cuts and extensive hiring. As artificial intelligence (AI), machine learning, and advances in communication drive major changes across all industries, technology companies often have to shed jobs in one area while hiring in another. From mergers and acquisitions to divestitures and downsizing, the industry is a revolving door for talent. How your organization handles a layoff can deeply affect future hiring and retention in this highly competitive talent market. That is why RiseSmart is your best option for protecting your workforce—and your organization—during times of workforce transformation.

RiseSmart is the leading provider of contemporary career transition services that strengthen employer brands, improve retention, and re-engage talent. High-performing organizations in more than 40 industries rely on RiseSmart's talent mobility and outplacement solutions to help employees realize the next phase of their careers faster. Its innovative, results-driven approach has earned RiseSmart a wide range of awards and recognition and has helped make RiseSmart one of the world's largest talent mobility and outplacement providers.
