

Integrating behavioral health into primary care – VNA of Ohio's Mental Health Program...

provides a range of services including individual counseling, medication management, and client and family education.

serves as a resource for individuals coping with diagnoses and challenges that inhibit independent living.

with the help of psychiatric registered nurses and social workers, develops a specific plan of care to holistically support each individual's health and wellness needs.

When Mary was young, she lived through a traumatic experience. Now, more than 70 years later, she began having anxiety and flashbacks of the trauma that would eventually impact her independence.

Even during a time of anxiety, Mary wanted to remain in the comfort of her home. She began mental health services with VNA of Ohio to address these feelings.

Through routine visits from a psychiatric nurse, Mary began to feel at ease again. The flashbacks no longer controlled her emotions, and she was able to maintain her independence at home.

The Mental Health program is designed to support individuals, wherever they call home. VNA of Ohio is the only organization certified as a home care and community mental health agency throughout the community.

About VNA of Ohio

Visiting Nurse Association of Ohio provides high-quality comprehensive home health and hospice care to promote health, independence, and dignity to those living in the communities we serve.

Founded in 1902, the organization has built a legacy for helping individuals and their families as they experience a health related situation. Today, we continue to provide expert services that will allow individuals to remain in the comfort of their homes.
