

Emergency Response Services

Unexpected disasters can have a devastating impact on the homeowners and businesses. Wolgast Restoration provides emergency response service 24 hours a day, 7 days a week for catastrophic events caused by fire, flooding, and severe weather. Our restoration experts are specially trained in mitigating large scale disasters of virtually any kind.

When dispatched to a disaster site, our emergency response team acts quickly and decisively to prevent further damage, limiting additional financial loss.

Site Evaluation

Wolgast quickly responds to each large scale emergency with a team of technicians, architects and engineers to evaluate the extent of damage, and develop a comprehensive mitigation plan that addresses the critical measures needed to be taken.

Safety Inspection

Wolgast takes safety seriously. With over 1 million hours of zero lost time due to injury, our record speaks for itself. We thoroughly inspect every site to ensure it is structurally secure and environmentally safe before any work begins.

Structural Board Up & Tarp Off

Immediately after a catastrophic event, it is paramount to protect your contents and structure from further damage. Our emergency response team reacts quickly to secure and seal your structure from the elements.

Temporary Power Supply

Restoring power quickly to your site is critical. Wolgast leverages our strong relationships with vendors to provide the necessary power required to expedite our restoration efforts, minimize down time, and reduce business interruption.

Water Extraction & Dehumidification

Water and humidity can cause irreparable damage, if not dealt with immediately. Our arsenal of high capacity water extractors and dehumidifiers allows us to tackle any mitigation task, no matter what the size.

Corrosion Prevention

Every building has critical mechanical equipment. If left unchecked, acids created from smoke, soot and water can render that equipment useless. Wolgast Restoration implements procedures to stabilize contaminated equipment to prevent irreparable corrosion and reduce restoration and recovery costs.

Structural Demolition

Wolgast's remediation experts perform a thorough evaluation of all contaminated structural materials and systematically removes them, while maintaining the structural integrity of the building.
