- 3 Label Spine Set
- 'Peel & Shield' Spine Label

COMPUTYPE SPINE LABEL PRINTERS ARE THE BACKBONE OF A WELL-RUN LIBRARY.

TAKE IT FROM OUR CUSTOMERS:

"We are very pleased with our labeling system. The labels are consistently clear and dark, and stick well to most book surfaces. Unlike dot-matrix printer ribbons, the Thermal Transfer ribbons neither dry out, nor make your fingers black as you change them. We have gone through several online catalog upgrades, one very substantial, with no adverse effects on our printing capability."

— Cheryl,
State University in Utah

SAVE TIME AND MONEY.

Computype's industry-leading experts can show you how to choose the right system to help manage your collection more efficiently.

You'll wonder how you ever did without our printers.

Computype™

SPINE LABEL PRINTERS

Computype™
YOU CAN COUNT ON IT.

L&M 01/12

CUT PRINTING TIME IN HALF? FADE-PROOF LABELS? REDUCE WASTE?

WE'VE GOT YOU COVERED.

Computype offers a complete line of spine printers and labels to give you exactly what you need without headaches or limitations. You'll get superior image quality with crisp, easy-to-read labels that won't smudge, fade or fall off over time. You'll waste less and print faster with a Computype solution that is customized for your library.

Computype™
YOU CAN COUNT ON IT.
