INTRODUCING CLOT: CRITICAL LABELS ON TIME.

PROVIDING THE LABELS YOU NEED RIGHT AWAY

It's often time-consuming and expensive to get a small quantity of blood product labels. And with more than 6,000 *ISBT 128* product codes in the ICCBBA database, it's hard to stock up on all of them. That's why Computype created CLOT: Critical Labels On Time.

Now you can get *ISBT 128* blood product labels quickly, easily, and economically:

> Standard label stock is 2" x 2" TS864 (gloss) or TS933 (matte)

> Normal turnaround time is 5 business days

> Only $16/roll of 250 labels

Just complete the Order Form online at: www.computype.com/CLOT128 to see instantly what the label will look like, then email it to us and we'll take care of the rest. You can expect:

> NO set-up charges

> NO print plate charges

> NO large minimum orders

> NO wait for proofs

The standard fonts comply with the *US Industry Consensus Standard for the Uniform Labeling of Blood and Blood Components Using ISBT 12*8 (Version 2.0.0; November, 2005; the adhesive complies with US FDA 21 CFR 175.105.)

Store at 1 to 6 C

SAVE LIVES, SAVE TIME, SAVE MONEY.

There's a lot of pressure put on the labels you use. If they don't perform well when it comes to readability, trackability and just hanging on, there's more at stake than just a missing label. With adhesives and materials that can withstand harsh environments, and barcode encodation that's been checked and double checked, Computype's got you covered with products that perform.

LOOK TO US FOR ALL YOUR CRITICAL LABELING SOLUTIONS.

We work closely with you to provide the right labels to meet all your requirements. And not just the right labels, but everything for your labeling needs. From labels to printers, and scanners to label replication systems, Computype offers this and everything in between.

WE'D LOVE TO HEAR FROM YOU.

Please feel free to contact us directly, or your Regional Sales Manager, if you have any questions about any of our services or capabilities, or for more details on our blank label stock program.
