

## imageOne Recognized as a “Cool Place to Work” by Crain’s Detroit Business

Oak Park, Michigan – November 7, 2012

imageOne, a leading managed print services provider, is pleased to announce that it has been named as one of *Crain’s “Cool Places to Work in Michigan”* by *Crain’s Detroit Business* magazine.

Designed to highlight the region’s best employers, the “Cool Places” distinction is awarded to organizations with a standout corporate culture. “Cool” employers received the highest overall scores in a weighted ranking that considers employee satisfaction and employer programs as key metrics. *Crain’s Detroit Business* runs the “Cool Places to Work” program in conjunction with the Best Companies Group, a specialist in employee surveys and analysis.

“We know that it takes more than great benefits and challenging work to attract and retain talented people,” commented Rob Dube, imageOne President. “We believe that employees are enriched when they are encouraged to grow professionally and personally, and have created a culture where growth is the expectation. This recognition is great confirmation that we are delivering for our team members. That’s cool!”

imageOne was also recently recognized as an INC 5000 Fastest-Growing Private Company, Metropolitan Detroit’s 101 Best and Brightest Companies to Work For, and the Sloan Award for Excellence in Workplace Effectiveness and Flexibility.

The full list of “Cool Places to Work in Michigan” was published in the November 5 issue of *Crain’s Detroit Business*.
