iCONN Systems, LLC Appoints SBD Technical Sales as Manufacturer's Representative for Southern California

LOMBARD, IL – October 31, 2016 – iCONN Systems, LLC (iCONN) announced the appointment of SBD Technical as its Manufacturers Sales Representative. SBD Technical brings to iCONN over 20 years of technical sales experiences in connectors across a broad range of customers in Southern California. Ronald Prokup, VP Sales & Marketing said, "We are very excited to have SBD Technical join the extended iCONN sales team. Their background within the customers and markets of southern California are a key to our continued growth in various markets and customers – especially those requiring unique and harsh applications".

SBD Technical Sales is a professional manufacturer's representative serving since 1988.

iCONN Systems, LLC is a custom engineered interconnect solutions design company that focuses on the manufacturing of electrical and electronic connectors, overmolded and discrete cable assemblies and value added turnkey products. Our design process continuously provides customers with high quality, cost effective designs for their specific applications, backed by superior customer service. At iCONN Systems, we strive for continued success and believe staying on top of technology and developing quality products and services and building strong customer relationships will continue to bring iCONN Systems to the top. We develop products with a total design concept that considers application constraints, durability, ergonomics, as well as audio and tactical features. We currently service customers within factory automation, GPS/GLS, marine, medical, monitoring/inspection, public safety, self-contained breathing apparatus (SCBA), sensor, signage, lighting, solar and wind energy, transportation, etc. industries but there are endless markets and opportunities where iCONN can be of support.
