

Drop Hardware

One Hole Offset Clamp 23-80403, 23-80405, 23-80406, 23-80407

The Diamond® Difference™

Does Your Hardware Pass the Test of Time?

The unique, proprietary approach that we have to mechanical galvanizing, and the standards that we insist on for our raw materials, ensure that Diamond parts can withstand corrosive environments for decades, a factor that is important today since replacement costs are so high.

Diamond® Products Stand the Test of Time.

Application

The Diamond One hole Offset Clamp is used in telephone, CATV and other utility installations to support and secure wire, cable, conduit and pipe.

Specifications

- Made of high quality steel.
- Mechanically galvanized to meet ASTM specifications A153 and B695.
- Available in a full range of sizes to accommodate 5/32" to 9/16" cable.
- Unique engineering design allows each size clamp to accommodate a varying range of cable sizes.
- R.E.A. accepted.
