

WALK-BEHIND

# POWER TROWELS

MBW gearbox is over built and preserves component commonality

Bronze wormgear extra heavy-duty hub and flange construction

One piece, case hardened wormshaft is the most accurate in the industry

CNC machinery and in-process inspection procedures allow no compromise on tolerances

	<b>F36</b>
Engine Options:	Honda GX160 (174 lb / 79 kg) Honda GX270 (200 lb / 91 kg) Subaru Robin EX17 (174 lb / 79 kg) Subaru Robin EX21 (176 lb / 80 kg)
Ring Diameter	37.5 in (95 cm)
Trowel Speed	70-135 rpm
