Keep your enterprise organized while on the go with calendar subscriptions delivered from ServiceNow ®

Overview

Stave Calendars allows any customer in your enterprise to see ServiceNow records appear automatically in his or her calendar application.

Integrate with Microsoft Outlook, Apple Calendar, iOS Calendar, Google Calendar, and every other modern enterprise calendar solution. Any date-aware record on any table can be synced, and your users receive will immediate insight into critical Change Requests, Major Incidents, upcoming Events, and more.

There are no limits to the number of calendars you create, no limits to the number viewers, and no limits on the amount of devices. Ensure you have no limits on your enterprise visibility today with Stave Calendars.

Expose calendars from any record type
Select a table from which to create event, and add filters. Links are generated to subscribe to the calendar.

Full customization of calendar events
Select start and end date fields for each calendar. Easily customize subject lines and descriptions. Even use GlideScripting to customize the details.

Ease of use with inherited security
No authentication required to view calendars. Include links back to ServiceNow records. Specify name and description for calendar. Mask out any data you don't want leaving the cloud.
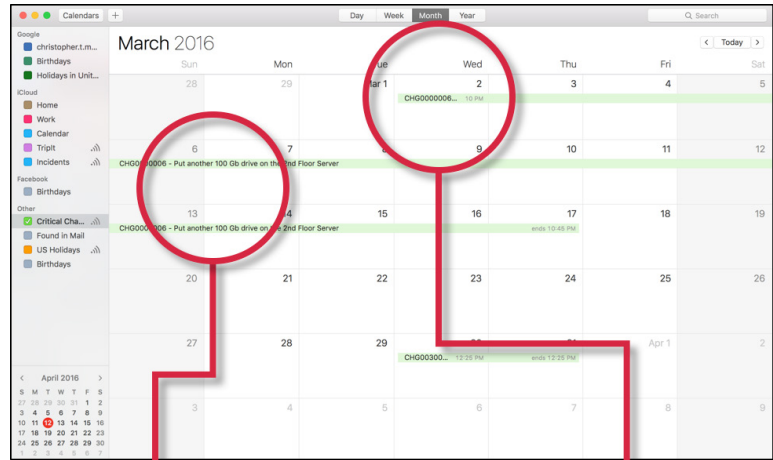

Configure publishing rate and frequency
Set Schedule Jobs to refresh and update new records. Load events directly into the calendar software of your choice.
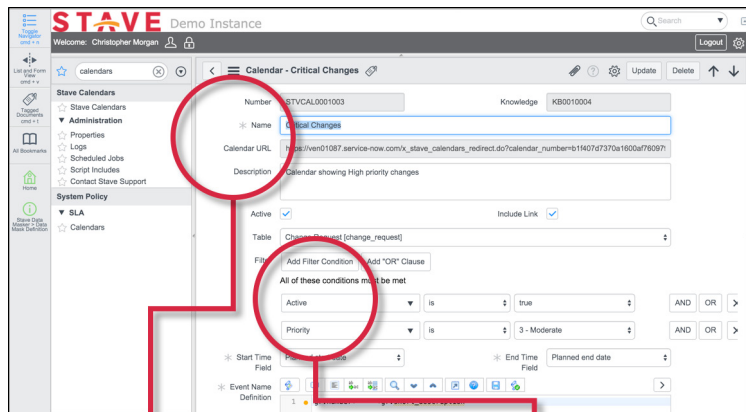

Any Calendar, Any Device

It doesn't matter what calendar application your team prefers. Stave Calendars works on all major solutions, including Microsoft Outlook, Google Calendar, Apple Calendar, and more.

Display ServiceNow records on the calendar of your choice, including mobile clients.

Configure display properties such as title and short description easily

Calendar subscriptions each have a unique URL to make it easy for users to access
Apply filter conditions to refine calendar data

Simple Creation

New calendar subscriptions can be created in seconds, using ServiceNow's standard drop-down interface. Stave Calendars makes it easy to distribute the calendars as well, with security already baked-in.

Mobility Included

Calendars work across all mobile devices, ensuring your team is kept up-to-date, even when on the go.
