

Protect your data and ensure compliance in your ServiceNow® cloud with Stave Data Tools

Overview

Stave Data Tools suite provides a comprehensive set of utilities to help organizations protect, secure, and maintain compliance of their data stored in ServiceNow.

Data Tools offers multiple capabilities to Alert, Mask, Scramble, Generate, and Prevent sensitive data from entering your instance of ServiceNow. Ensure security and compliance with your enterprise cloud governance policies.

Data Tools is a comprehensive suite of three applications working in harmony. Data Masker prevents sensitive data from entering or exiting your cloud. Data Generator speeds up testing and increases development quality by creating realistic sample datasets. Data Scrambler ensures you are in compliance by protecting data migrated across instances.

DATA MASKER

Keep out the problem data

AVOID PII MISTAKES

Automatically prevent users from entering Personally Identifiable Information into the cloud

RECEIVE ALERTS

Log all attempts and receive notifications if certain data is entered by a user

DATA GENERATOR

Build and test with realistic samples

REALISTIC SAMPLE DATA

Save time and improve quality of your testing with proper data to view

FAMILIAR TERMINOLOGY

Descriptions generated are contextually-correct. See technology words in Incident descriptions.

DATA SCRAMBLER

Prod to sub-prod without a problem

CHANGE DATA ON THE FLY

Mix up your sensitive production data into similar yet different values to maintain privacy and compliance

MAINTAIN IMPORTANT PATTERNS

Maintain important data patterns, in fields such as email addresses that match name field values.

Instant Integration

Data Tools is a complete suite containing three scoped applications; Data Masker, Data Generator, and Data Scrambler. Together they provide ServiceNow users with powerful data protection capabilities.

Powered by the Platform

All Stave applications are run within the ServiceNow platform, inherit every benefit of the tool, and make use of the powerful accessibility and redundancy of their datacenters.

About Stave

Overview

Stave is professional software development firm focused on delivering functional Applications and Utilities for the ServiceNow platform.

We deliver software that helps to extend the platform across the enterprise, with a focus on enabling organizations to deliver continued value to the organizations they support.
