Presents: Endocrinology Terminology for Medical Interpreter* (focusing on Diabetes Mellitus)

May 30th, 2015 – 9:00AM – 1:00PM

**Location: Affordable Language Services
4350 Glendale Milford Rd, Cincinnati, Ohio 45242**

Endocrinology Terminology for Medical Interpreter, focusing on Diabetes Mellitus” is a 4-hour continuing education class for medical interpreters who provide services to diabetes education centers and endocrinology clinics for children and adults. The following topics will be covered during the training:

Educational Objectives:

1. Identify the endocrinal glands and endocrinal diseases.
2. Have an understanding of diabetes mellitus, etiology, symptoms and treatments
3. Recognize some main medical terms commonly used in endocrinology in general with emphasis on Diabetes related medical terms.
4. Have a working knowledge of what to expect from a diabetes education interpreting appointment

Radwa Hael is originally from Egypt, she graduated as Doctor of Medicine from Kasr eleini College of Medicine, Cairo University, Cairo, Egypt. In 2008 Radwa finished her Master Degree in Pediatrics at Cairo University, Cairo, Egypt and in 2014 she obtained her Ph. D on Child Health and Nutrition from the Institute of Postgraduate Childhood Studies, Ein Shams University, Cairo, Egypt.

Radwa has participated as clinical investigator in many researches including the “Effect of iron supplement on the weight of obese school children, in Egypt” and the “Impact of Balanced Caloric Diet and Physical Activity on Body Composition and Fat Distribution of Obese Egyptian Adolescent Girls”.

Some of Radwa’s publication are: “Serum vaspin level and metabolic syndrome markers in obese children” and “Resistin and Obesity- Associated Insulin Resistance in Children”. Radwa has been actively working as an Arabic interpreter at Affordable Language Services.
