Quality / Design

For sustainable success: porcelain *Made in Germany.*

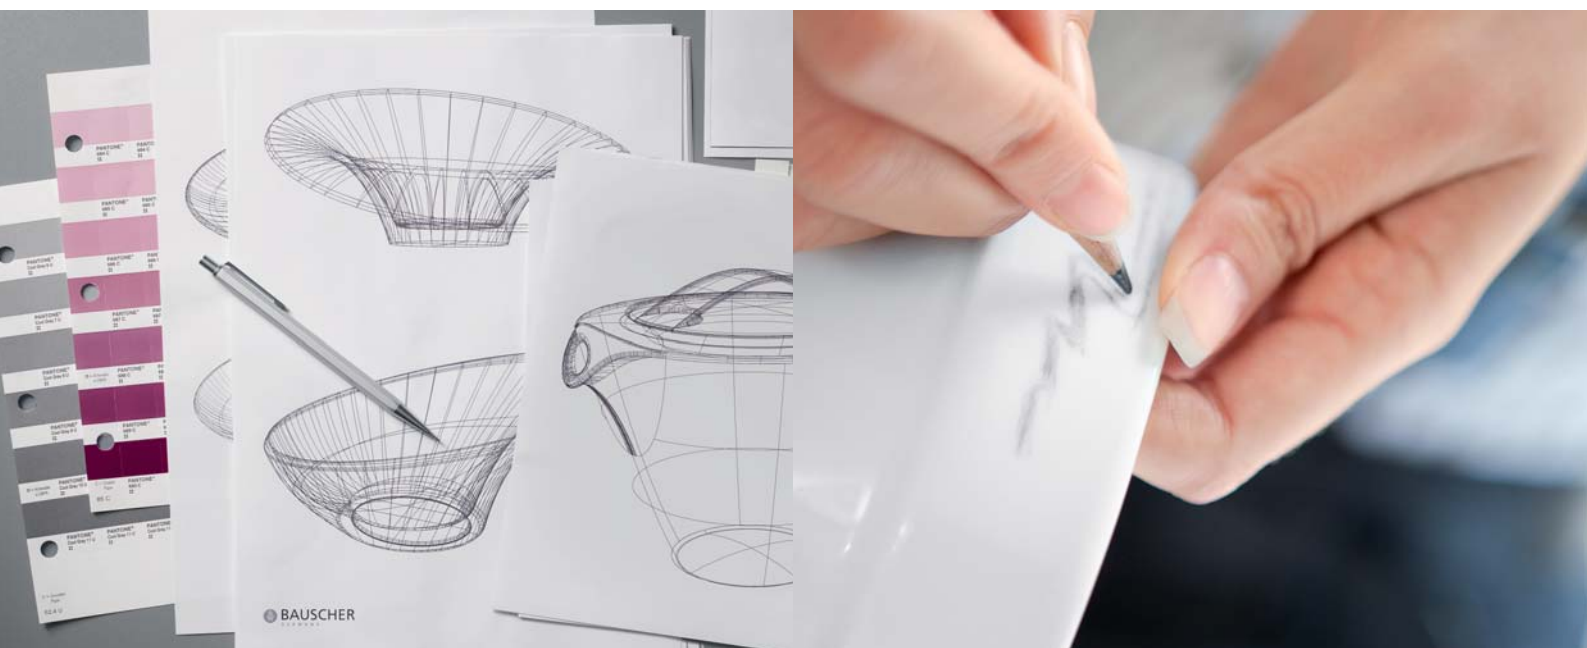

High-quality porcelain from Bauscher is exclusively made in Germany. This allows us to ensure that high quality and ethical standards are met in the manufacturing of our products. The extremely robust Bauscher tableware is manufactured using energy-saving and resource-conserving processes. New firing technologies lower energy consumption to a third of its previous level and avoid CO₂ emissions. Porcelain itself has an outstanding environmental balance per se because it is made of just a few natural raw materials. All raw materials and intermediate products are completely recycled by Bauscher. Ambitious energy savings achieved by our employees have been recognized with the 2008 Energy Efficiency Award and the 2010 Energy Prize of the City of Weiden. For Bauscher, sustained success also means guaranteeing safety in the workplace and fair treatment of employees.

Quality / Design

Exceptional design that bears your personal hallmark.

Bauscher porcelain features a perfect balance between design and function. Renowned designers produce the creative form language of each collection. The carefully thought-out food presentation concepts are used in the international hotel and catering industry just as in hospitals, company cafeterias, cruise ships, and trains. With high-quality porcelain from Bauscher, your company not only demonstrates the finesse of your cuisine but also reveals a part of your personality. An individual décor provides for an unmistakable identity. Our atelier would be pleased to develop a design completely tailored to your needs. You can choose a décor from our standard range or you can add a personal touch by using your logo. Bauscher's décors are extremely durable: By using high firing temperatures, the décor pictures sink deeply into the glaze melting together. They are protected permanently, hygienically impeccable, and dishwasher-proof.
