

Over 38 years of experience.

Get the right waterer in the right location!

Waterer specification and location in your beef barn is critical to optimizing feed efficiency and cattle performance. **Summit Livestock Facilities** is pleased to offer the Blue River lines of Poly Waterers and Concrete Waterers. Contact us to prescribe the correct Blue River size and waterer locations in your monoslope beef barn.

Blue River Poly Waterers

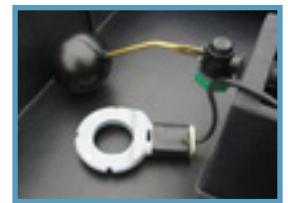

2 separate sections

Black color attracts heat

20 gallon tank

Unique float & valve

5 Sizes to Choose From:

- 18" length, 5 gallon, 20 head
- 20" length, 7 gallon, 40 head
- 34" length, 16 gallon, 100 head
- 40" length, 20 gallon, 150 head
- 56" length, 34 gallon, 200 head

All tanks are 25" wide and 24" in height.

Blue River Poly Waterers are foam filled with poly constructed double walls, making them long-lasting and durable. All of the hardware is stainless steel and the bolt down points are internal, making it one of the most efficient waterers to operate! Each waterer includes a 110 volt, 500 watt heating element thermostat. Order yours today!

Blue River Concrete Waterers

30 CH or EH

35 CH

42 EH

90 EH Super

*EH = End Hood, CH = Center Hood

Concrete waterers come in additional sizes or customizable!

Blue River Concrete Waterers are made up of rugged, long lasting reinforced concrete. Easy access doors are located on the sides of the units, and they come with an easy to remove stainless steel hood for quick access to the valve. These 25" high tanks include a 2" overflow outlet with stainless steel and plastic hardware for constant flow units. A self sealing funnel type drain makes cleaning easy. Order your epoxy coated, high strength waterer today!
