

THE RED KNIGHT INSTITUTE CAREER ACADEMY

High School Internship Program with Briggs & Stratton Corporation

Milwaukee Lutheran High School has teamed with Briggs & Stratton to offer the High School Internship Program, a unique program where students can earn high school credit, gain real-world experience in an actual work environment, and earn a competitive wage. The program is presented in three phases.

Phase 1 (Complete)

Thirteen seniors toured the Burleigh Plant and were interviewed for the High School Internship Program which takes place in the second semester of the senior year. Upon completion of the High School Internship Program, students may be offered seasonal employment or a full-time position after graduation.

Phase 2 (In Progress)

By the 2016-2017 school year, a course entitled "Manufacturing 101" will be created along with a more defined course path in technical education to advance students' mechanical expertise.

Phase 3 (The Vision)

Bringing together both of the previous phases, Phase 3 completes the Career Academy experience. A building expansion will house additional technical courses designed to further enhance students' mechanical expertise in the areas of metal working and welding. Upon graduation, students will earn a mechanical certification which will enable them to compete for more highly skilled positions.

An Individualized, Educational Journey for Every Student

The Red Knight Institute is an educational leadership program designed to meet students' academic and career needs on an individual basis. The Career Academy opens the door for students looking for an opportunity to advance their career in the field of engineering or manufacturing after graduation.

Briggs & Stratton Summary

Briggs & Stratton Corporation, headquartered in Milwaukee, Wisconsin, is the world's largest producer of gasoline engines for outdoor power equipment. Its wholly owned subsidiaries include North America's number one marketer of pressure washers, and it is a leading designer, manufacturer and marketer of power generation, lawn and garden, turf care and job site products through its Simplicity®, Snapper®, Snapper Pro® Ferris®, Allmand™, Billy Goat®, Murray®, PowerBoss® Branco® and Victa® brands.
