

RED KNIGHT INSTITUTE

An Individualized, Educational Journey for Every Student

Starting Sophomore year, any student can build their high school curriculum around their talents and goals.

What is the Red Knight Institute?

The Red Knight Institute is an educational leadership program designed to meet students' academic and career needs on an individual basis. Whether it's accelerated academics for a four-year college degree, coursework in our newly expanded technical education department, or a well-rounded Christian education in preparation for ministry service, The Red Knight Institute is designed to identify and enhance each student's God-given talents.

What is different about this curriculum?

Students in The Red Knight Institute will enjoy an educational experience which focuses on developing 21st century skills that are necessary to function both inside and outside the classroom environment. The curriculum includes:

- Internship experiences in a professional setting
- Service component totaling 100 hours of community service in conjunction with a non-profit organization over the course of a student's high school career
- Capstone leadership and service project at the end of the senior year
- Attending a Leadership Lecture Series which brings influential leaders at the local, state and national level who will deliver messages directly to students at Milwaukee Lutheran High School
- Additional college and career planning services including standardized test preparation, college and career tours, and counseling services

Who is right for this program?

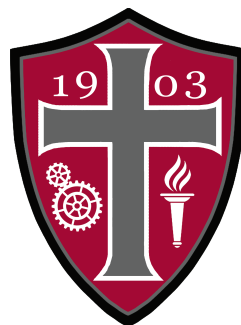

Sophomores who are self-motivated and willing to take on additional coursework both inside and outside of the classroom, have outstanding attendance and discipline records, participate in at least two extra-curricular activities each school year, have earned a strong GPA by the end of the freshman year, and are open to learning and mastering new leadership techniques will be admitted into this program at the end of the freshman year.

We look forward to seeing our future leaders in class!
