

Finding and Using New EasyTech Lessons

Updates to EasyTech’s elementary grade lessons, middle school spreadsheets lessons, and a new scope and sequence are now available. The table below will help you identify how to find and use the new lessons. Each new and updated lesson has “(New!)” or “(Updated!)” in the lesson title to make them easier to locate.

If you have already created custom units with older EasyTech lessons, you can update your units with the corresponding replacement lessons. Note: EasyTech lessons that have been replaced will still be available for ongoing use from the EasyTech Archives unit and will be labeled as an archived item.

IF YOU’VE BEEN USING THIS LESSON	USE THIS REPLACEMENT LESSON	UNIT	GRADE LEVEL	AVAILABLE
Basic Components	Basic Components (Updated!)	Web Browsing	2-5	8.4.15
Keyword Searches	Keyword Searches (Updated!)	Web Browsing	2-5	8.4.15
