

EHR Integration with Epic Aura

Zio[®] by iRhythm is the first medical device company to offer service through the Epic Aura network, enabling a seamless and secure transmission of Zio[®] orders and results through Aura. A simple, one-time configuration of your Epic system is required at no cost from iRhythm.

Zio[®] Epic Aura integration benefits may include:

Increased order access, reduction in data errors, and improved patient and provider satisfaction

Streamlined provider ordering, results automatically available in the patient record and on Aura

Enhanced patient experience via MyChart portal

Streamlined implementation

No need for VPNs or HL7 interfaces

Turbocharger package with order and question build

Faster and more efficient integration process, ~3–6 weeks vs. standard 12-week HL7 integration

One-time seamless setup. iRhythm works with your IT team to:

1

Import turbocharge package with prebuilt orders and questions needed for the registration process

2

Design a workflow that best fits your organization

3

Complete a robust testing plan

4

Provide go-live support

About iRhythm

iRhythm Technologies is a leading digital healthcare company that strives to create trusted solutions that detect, predict, and prevent disease. Combining wearable biosensors and cloud-based data analytics with powerful proprietary algorithms that distill data from millions of heartbeats¹ into clinically actionable information.

Zio[®] ECG monitors are simple to apply and wear,² the patented design enables high patient compliance and analyzable time with minimal noise or artifact.²⁻⁵ The Zio[®] end-of-wear report is generated by our FDA-cleared, deep-learned algorithm that can detect 14 rhythm classes, plus artifacts, and is verified by Certified Cardiographic Technicians.⁶⁻⁹ With 99% physician agreement, the accuracy of the Zio report can save time when interpreting reports, allowing more time with patients.¹⁰

Ask your Zio service sales representative to help quantify the benefits of Epic Aura EHR integration for your health system or call (888) 693-2401 or email aura@irhythmtech.com

Mobile cardiac telemetry baseline, transmission, and daily reports are not electronically transmitted from iRhythm to EHR systems, they are only available in ZioSuite.
