## **CHEMICAL/LAB SINK SUPPLIES**

### **SINK SEALANTS**

Lab grade (chemical resistant) epoxy cement, black color standard (white color on request). Available in pint cans. A set consists of one pint can of Part-A and one pint can of Part-B. Epoxy cement hardens when mixed and left to dry.

Non-hardening silicone in cartridges. Natural, translucent or black color is standard. Each cartridge is 10.3 ounces.

\*\*NOTE: epoxy cement and silicone sealants can be used for sealing sinks and cup sinks to countertops and for installing sink strainers into sinks. T&C epoxy resin is more chemically resistant than silicone. However, T&C silicone is very resistant to many chemicals.

### **POLYPROPYLENE SINK LEGS**

These 1/2" thick legs can be installed (welded) onto any T&C Polypropylene sinks, at our factory. White or black colored legs are available. Epoxy sinks will have polypropylene legs welded to a support base plate for the sink to rest on. Legs include perimeter (cross) bracing for extra strength.

### **POLYPROPYLENE OR EPOXY SINK BACKSPLASHES**

Same as above (1/2" thick). White or black color standard on black sinks. Backsplashes can be drilled for faucet holes at factory, upon request.

### **POLYPROPYLENE OR EPOXY SINK SIDE-SPLASHES**

Same as above (1/2" thick, white color).

### **POLYPROPYLENE OR EPOXY SINK DRAINBOARDS / COUNTERTOPS**

Same as above (1/2" thick, white color). Available on left and/or right side, or sink can be centered in middle. Lip or rim available on top edges of drainboard, at additional cost.

\*\*NOTE: Any part or all of the above items may be installed onto any T&C polypropylene or epoxy sink, upon request. The above prices must be added to the sink price, for the T&C sink selected. Allow 5-7 weeks for the special sink fabrication items.

Ask your local T&C Rep or distributor for price lists and data sheets on T&C polypropylene sinks (these are the most chemically resistant sinks available). Heavy-duty and medium duty PP sinks available. Ask for T&C sink accessories price list.

### **PRICES:**

DESCRIPTION	LIST PRICE
EPOXY	\$132.00 per set
SILICONE	\$49.50 per cartridge
SINK LEGS	\$1430.00 per leg-support assembly
