For Immediate Release

Datacor, Inc. Releases FDA Validation Toolkit for Chempax C/S

Florham Park, NJ – October 2015 – Datacor, Inc., the leading developer and provider of Enterprise Resource Planning (ERP) and Customer Relationship Management (CRM) software solutions for Chemical and Process Manufacturers, announced today the release of its U.S. Food and Drug Administration (FDA) Validation Toolkit for Chempax C/S.

Datacor's FDA Validation Toolkit for Chempax C/S is designed to help manufacturers who must meet and maintain FDA compliance. It provides a basic "roadmap" to follow and is presented in an easy-to-understand format. The FDA Validation Toolkit includes the necessary analyses, protocols, walkthroughs, reviews and test cases to assist organizations to quickly and effectively validate Chempax C/S.

"FDA software validation within regulated chemical and process manufacturers can be a monumental task, especially for Enterprise Resource Planning (ERP) systems like Chempax C/S due to their large and complex nature," said Sean O'Donnell, President of Datacor, Inc. "We understand the unique challenges our customers face in complying with the FDA software validation requirement. By offering this comprehensive FDA Validation Toolkit, it will help ease the burden of validation due diligence and regulatory compliance in a reasonable and cost effective manner."

About Datacor, Inc.:

Datacor, Inc. is recognized for practical software that enhances operations for more than 700 chemical and process manufacturers. Datacor delivers fully integrated enterprise resource planning (ERP) and customer relationship management (CRM) solutions complete with installation, implementation, on-site training and continued support.
