DATACOR, INC. PARTNERS WITH FORMULATOR SOFTWARE, LLC

Florham Park, N.J. – August 2014 – Datacor, Inc., the leading developer and provider of Enterprise Resource Planning (ERP) software solutions for Process Manufacturers and Chemical Distributors, announces a joint venture with Formulator Software, LLC to integrate FORMULATOR™ with Chempax.

The new alliance integrates FORMULATOR™ and Chempax functionality to streamline the collaborative process between Laboratory and Production. “Formulator’s expertise in the lab combined with our experience in production and operations gives our customers a powerful end to end solution for bringing products to market. We know this is going to be a huge success for our customers”, states Sean W. O’Donnell, President of Datacor, Inc. “We look forward to a long term successful relationship with Formulator”.

In addition to the integrated Lab Book, customers will be able to create SDS based off of their standard formulas in Chempax as well as new and revised formulas to ensure regulatory compliance to OSHA’s Globally Harmonized System (GHS) for Classification and Labeling of Chemicals. With the GHS compliance deadline quickly approaching (June 2015) the time is now to get started on converting MSDS to GHS compliant SDS.

About Datacor, Inc.:

Datacor, Inc., is recognized for practical software that enhances operations for more than 700 chemical process manufacturers and distributors. Datacor delivers fully integrated enterprise resource planning (ERP) and customer relationship management (CRM) solutions complete with installation, implementation, on-site training and continued support. Backed by over 30 years of experience in the chemical and process industries, Datacor creates advanced technology to solve industry challenges, raise productivity and drive profitability. Chempax serves more than 10,000 users world-wide on a daily basis.

About Formulator Software, LLC:

Formulator Software, LLC supplies laboratory software for formulation development and improvement, performance property calculations and costs analysis with QC test functions linked with Regulator to develop regulatory SDS forms and Hazardous Container Label output. They serve Formulation Chemists, Regulatory Agents, and Food Technologies in Specialty Chemicals (i.e. Adhesive, Paint, Ink, Cleaning Materials, Lubricants, and Polymers), Cosmetics & Drugs, Nutritional and Food Industries. For more information, visit www.formulatorus.com or call (908)735-2248.
