

Chempax ERP Systems Laboratory & Production Process

We are committed to providing you with the best-in-class services. As a result, we have integrated **FORMULATOR™** with your **Chempax** software to streamline the collaborative process between Laboratory and Production. In addition, you will be able to create SDS forms for standard Chempax formulas as well as your new and revised formulas to assure regulatory compliance to OSHA's Globally Harmonized System (GHS) for Classification and Labeling of Chemicals.

Key Features:

- Speed formula development, modification and improvement.
- When ready to sell, produce, inventory send formulas to Chempax.
- Properties calculated as you formulate. Key properties available to meet regulatory requirements.
- Explosion of Intermediates at multi-level, the Sum of Components of the full formula for regulatory raw materials review.
- SDS development and output for multiple US and global jurisdictions and multiple languages.
- Raw materials and container cost from Chempax provides full cost analysis as you formulate.
- Intuitive graphic tools make it easy to learn and use.
