DATACOR, INC. ANNOUNCES PARTNERSHIP WITH SINGULAR PAYMENTS TO STREAMLINE THE PAYMENT COLLECTION PROCESS IN CHEMPAX

Florham Park, N.J. – June 2014 – Datacor, Inc., the leading developer and provider of Enterprise Resource Planning (ERP) software solution for Process Manufacturers and Chemical Distributors, announces a partnership with Singular Payments to integrate a new payment-processing module for Chempax.

Instead of processing payments through an external point-of-sale terminal or third party software, Chempax users will be able to seamlessly process payments made using credit and debit cards directly within the software itself. This new payment module utilizes Singular Payments' revolutionary One Flat Rate pricing methodology and eCheck processing features, which not only simplifies the process of collecting payments, but eliminates the unmanageable costs of interchange qualification criteria that is commonplace with the acceptance of credit and debit cards. As a result, Chempax users can more efficiently and cost-effectively manage payments, improve cash flows, and lower overall operating costs relating to the facilitation of payments.

"We are looking forward to a successful relationship with Singular Payments to provide an easy, secure and cost effective solution to credit card processing within Chempax," said Sean O'Donnell, President of Datacor, Inc. "It's great for our current and future customers."

For more information, please contact Vaden Landers at Singular Payments at 877-829-2170, x. 7008, via email vlanders@singularpayments.com, or visit www.SingularPayments.com/Datacor.
