

Zedi Access Updates – February 22, 2015

At Zedi we are continuously looking for ways to enhance your user experience within the Zedi Access platform. We have received your feedback and are excited to inform you of the improvements we have made to Zedi Access.

Zedi Access

What's new?

- Zedi Access Supported Browsers
- Improved Search in Main Landing Page under Production Tab
- Improved Search in Main Landing Page under Operations Tab
- New Graph in Live Data Screen for SilverJack XY Card

When is this happening?

On February 19, 2015, no downtime will be required.

Where can I find this change?

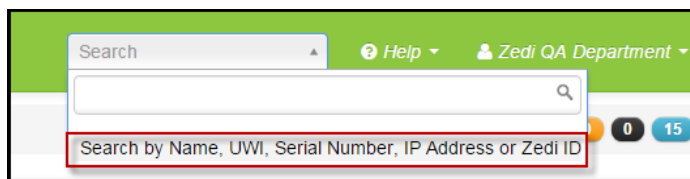

Zedi Access Supported Browsers

We highly recommend that you upgrade your browser to avoid any platform incompatibilities. Zedi Access will deliver its best performance if accessed from (IE 10, 11 or current versions of Google Chrome). Zedi cannot guarantee optimal performance (visual images, downtime and enhancement features) for users who do not upgrade to one of the recommended

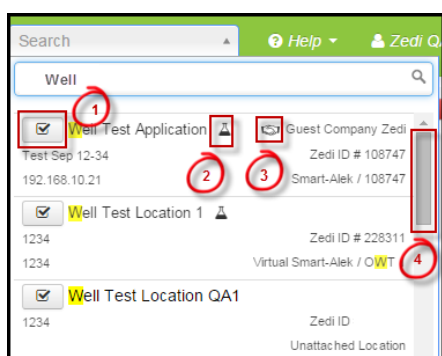

Improved Search in Main Landing Page under Production Tab

You will now have improved search options in the Main Landing Page of Zedi Access under the Production tab. You will be able to search using the following:

- **Serial Number**
- **UWI/Identifier**
- **IP Address**
- **Location Name/LSD**
- **Oil Well Test Locations**
- **Zedi IDs**

With this improved search you will also be able to type your criteria in the search bar menu and it will generate a list of all the locations that match your search and will be highlighted in yellow. You can click the checkbox to the left of the location name to select multiple locations from your search and use the scroll bar to view all of the matches you have received.

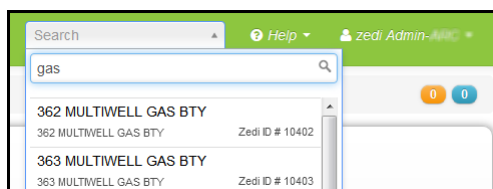

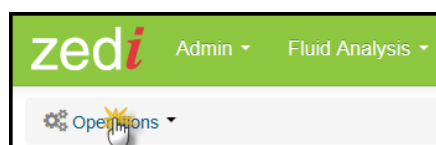

1. Multi-Select Icon
2. OWT Icon
3. Multi-Company Access Icon
4. Scroll Option

Improved Search in Main Landing Page under Operations Tab

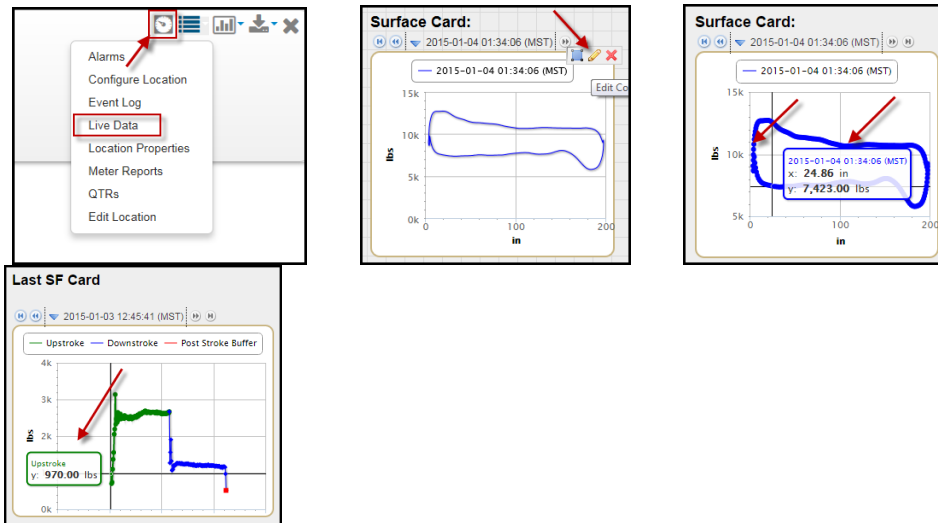

You will now have improved search options in the Main Landing Page of Zedi Access on the Operations tab. You will be able to search using the following criteria:

- **Site Name**
- **UWI/Identifier**
- **Zedi Site ID #**

New Graph in Live Data Screen for SilverJack XY Card

A new graph has been added to the Live Data Screen for SilverJack XY Cards. SilverJack Pump Cards now have the same look and feel as graphs elsewhere in Zedi Access. The new feature provides you with ability to zoom in, hover over data points and view the value, temporarily remove a sensor from the graph by clicking its name in the legend and include the point (0,0) instead of auto scaling.

If you have any questions about this update please contact Zedi Customer Care at support@zedi.ca or 1-866-732-6967.
