

## HEALTH CHECK

ENAVATE's Health Check is an AX application installed in your environment that reviews data integrity and application quality and can boost system responsiveness.

Increase the quality, reliability and performance of your Dynamics AX Solution

- **Find and solve issues and optimize your system.**  
Survey underlying causes and address them quickly and efficiently.
- **Restore confidence in your system data.**  
Faster response times, fewer errors and better business support.
- **Ease compliance and user rights management.**  
Check the integrity of your security and transaction and audit trails.
- **Keep your system in shape every day.**  
Run on-the-spot quality checks yourself and catch issues as they arise.

**Contact ENAVATE today at 303.469.2346 to learn more!**
