

Things You Can Do With Energy Management Software

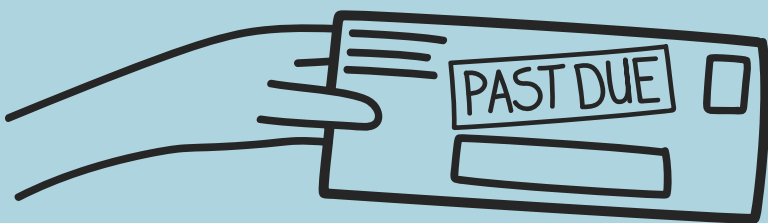

Pass utility bill info to your Accounts Payable department.

Create internal invoices for departmental energy expenses.

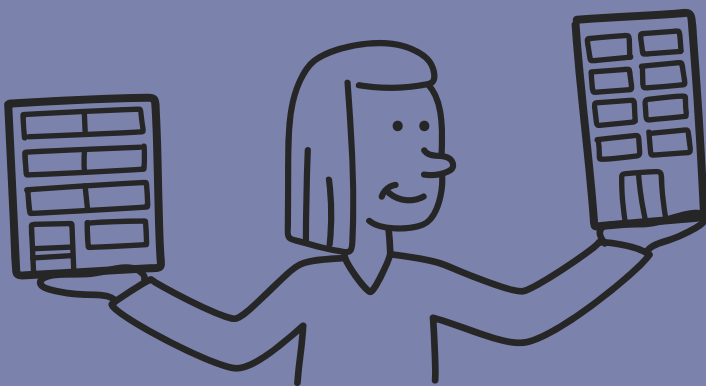

Report on late utility payment fees you paid in the last quarter.

Get your organization's carbon footprint.

Compare energy use at similar facilities using metrics like total cost and cost per sq.ft.

Automatically submit your building energy data to ENERGY STAR.

Set up weekly energy reports emailed right to stakeholders' inboxes.

Access your historical energy records anywhere you can load a web browser.
