Good Afternoon Mike,

I am sending a note to thank the North Cowichan RCMP, their 911 dispatch and your Sonitrol operators for their great work in catching the man who broke into our compound early Sunday morning. Your Sonavision Live Monitored Video system detected this man as he breached our fence line, and your operators dispatched the RCMP immediately. The responding Police officers arrested this man only a few minutes later – with no damage to my property and nothing stolen! The officers were professional, and also very approachable.

After having multiple undetected B&E's to our compound, we installed Sonitrol back in 2010 to protect the assets in our yard. Since then we have added your Verified Intrusion and Sonavision systems at our Langley Head Office, two sites in Richmond and our Abbotsford branch.

We are proud to be able to help the Police help us. Your technology and systems give the Police INSTANT confirmation that an alarm is REAL... and because the Police know it is real, they come right away. Awesome. Thank you again to the North Cowichan RCMP!!

Sincerely,

Chad Clark
