Developer III

KORE Wireless – Winnipeg, MB

Are you passionate about development and want to work for a company as passionate about it as you? If you have demonstrated development skills and thrive in a fast-paced environment, you may be the person our team needs to join our team as a **Developer III** in Winnipeg, Manitoba.

This is a unique opportunity to do innovative development work in the fastest growing technology field. If you are selected for this role, you will be able to use cutting edge technologies to build web-scale applications that process millions of data points daily. Our primary technology stack is .NET/C#, with a strong focus on SOLID development principals.

KORE is truly an International leader delivering connectivity in all seven continents and has been recognized as a Connected World Top 100 Company. We offer the opportunity to be part of the largest independent machine-to-machine (M2M) network services company in the world. The M2M market has worldwide revenue growth projections in excess of 20% per annum with a billion connections forecasted by 2020. It is likely that M2M will touch everyone's life every single day and in many ways - from applications ranging from connected vehicle applications to managing smart household appliances to managing your health and the cost of your utilities.

Key Responsibilities:

- Working with other developers to build mission critical, web-scale systems using cutting edge technologies
- Proactively working with stakeholders to determine the best solution
- Working closely with lead developers to understand feature specifications
- Rapidly produce interim deliverables (such as technical proofs of concept, etc)
- Take initiative to research and learn emerging technologies
- Implementing .NET and database-based solutions utilizing industry best practices
- Supporting a culture of continuous improvement
- Ensuring the creation of proper documentation

Required Skills and Qualifications:

- Familiar with Agile and SCRUM development processes
- Proficient with the Microsoft development stack (ASP.NET/C#, Web API, MVC)
- Proficient with SOLID principals
- Proficient with relational Databases (SQL Server preferred)
- Proficient with ORM such as Entity Framework / NHibernate
- Proficient with object oriented programming, including MVC/MVVM concepts
- Experience solving complex and large-scale software problems
- General knowledge about computer networking, and TCP/UDP systems
- Commitment to continuously improving the end-user experience
- Commitment to continuous learning and team/individual growth
- Commitment to supporting corporate initiatives and guidelines
- Ability to estimate work at a project or individual level, and consistently deliver within those timeframes
- Ability to lead and mentor less experienced developers
- Ability to be mentored by more senior developers
- Excellent command of verbal and written English; multilingualism is an asset
- Ability to thrive in a high paced and, at times, high pressure environment
- Well organized, with the ability to successfully work under tight project deadlines
- Ability to work adjusted hours when required
- Willing to participate in occasional On-Call duties
- Demonstrates our core competencies of customer focus, integrity, initiative, innovation, collaboration and results orientation
- Bachelor’s degree in Computer Science or a related field or equivalent experience
- 4+ years experience in professional software development

Preferred Skills and Qualifications:

- Previous Telco and/or M2M experience
- Modern UI technologies such as AngularJS, HTML5, and CSS3
- NoSQL/Document based databases, such as Couchbase
- Concurrency and concurrent software
- RabbitMQ, NServiceBus/MassTransit
- Continuous integration and automated builds with TeamCity and Octopus Deploy
- Git/GitHub
- Modern CSS frameworks (Foundation, Bootstrap)
- Grunt/Bower
- Javascript/Coffeescript
- F#

We are growing at an astonishing rate and need talented developers. For consideration, please submit your resume to: careers@korewireless.com. While we appreciate the interest of all candidates, due to constraints only those individuals selected for an interview will be contacted.

KORE provides equal employment opportunity for all persons, in all facets of employment. We maintain a drug-free workplace and perform pre-employment background checks.
