

**“TURN-KEY APPROACH THAT PREVENTS ANY DETAILS FROM BEING MISSED”**

CME offers the right equipment, managed product flow, assembly and delivery with Direct-to-Site service option.

CME's Direct-to-Site (DTS) services are a turn-key approach that covers the initial equipment purchase, tracking of the items, receiving, warehousing, staging, assembly and delivery direct to the room, allowing us to oversee all aspects of facility setup for our customers, preventing any details from being missed during the process.

#### Direct-to-Site Services include:

- A detailed quote formulation
- Recommendations on cost-saving, top quality substitutions
- PO coordination
- Tracking of all products
- Receiving of all items in our warehouse
- Handling of all damage claims
- Staging and assembly
- Direct-to-room delivery
- Post-Delivery coordination of services between the customer and manufacturers.

#### Advantages of Direct-to-Site Approach:

- On-time delivery
- One point of contact
- Assistance in product selection by specialists
- Save money and time
- No lost or damaged products (*All claims handled by us*)
- No outsourced logistics company
- Your employees do the work that is most important to you

“SIMPLICITY IS THE KEY”

## We believe in a streamlined approach to hospital supply chain management – white glove, turn-key delivery service for equipment.

Sometimes simplicity is the key. In more than three decades of service, we’ve heard all of the common complications with a remodel or new facility launch. We kept thinking there had to be an easier way to do this – and now we know there is!

Common Problems	How We Can Help
Issues finding and sourcing products	We can research and source any product
Not enough warehouse space	Use our warehouse to store and stage equipment even if you didn’t buy it from us
Not enough man power	Use our trained personnel to receive, assemble, and deliver the equipment
Items came in damaged	Let us receive, inspect, and file all insurance claims if necessary
Items are missing or did not arrive on time	We monitor & track every product from PO to delivery to insure on-time delivery
Patient disruption during product delivery	Schedule the delivery of product when it is most convenient for you and your patients

There aren’t any surprises when working with us – just an organized and efficient delivery process. From purchasing to delivery, our expert experience will be here for you every step along the way. We’ve created guidelines to prepare for the possibilities of any unexpected difficulties, and have modernized our approach to prevent many of them.

Let it be simpler. Choose the one-stop approach, and let us be your project management team!
