

**“99% OF BUSINESS  
FOCUSED SOLELY ON  
MEDICAL EQUIPMENT  
AND LOGISTICS”**

Our goal as a comprehensive medical equipment and turnkey logistics company is to provide personalized support and service including: a knowledgeable, accessible sales support team, a wide array of products, adaptable logistics, and delivery and installation services.

### Medical Equipment Specialists

- 99% of our business is focused solely on medical equipment
- Sales team is highly-trained in both product knowledge & industry trends
- Our experience helps you choose the right products and services tailored to your needs
- We are an extension of your company when it comes to medical equipment

### Breadth of Product

- Your one-stop-shop for medical equipment purchasing
- We represent over 1,400 manufacturers and 1,000,000 products
- Product verticals include medical exam room furniture, diagnostic equipment, IT equipment & accessories, wire shelving, appliances, janitorial equipment, casework, and many more
- If you need help finding something, we will find it for you

### Logistics & Services

- Turn-key Direct-To-Site Services tailored to your needs
- Direct-To-Site services include receiving, warehousing, assembly, staging and delivery of products direct to the room.
- Our services are designed to streamline the purchasing process, reduce errors, and save time
- These services can be provided to new medical facilities, expansions, remodels, replacement projects and your everyday equipment purchases

## CME, your premiere nationwide source for medical equipment and turnkey logistics.

### About CME

CME, formed from the merger of Claflin Medical Equipment, Hospital Associates and RSI, is the premier source for equipment and turnkey logistics, delivery and support for the healthcare community. The company helps medical facilities nationwide to seamlessly launch, renovate and expand. CME has three branches and over 30 service centers spanning the nation and offers an expanded product line of more than 1 million medical products from more than 1,400 manufacturers.

As a comprehensive medical equipment and healthcare services company, the goal of its highly-trained and accessible sales force is to always provide the utmost in personalized support and service.
