

Job Title: Neuro-Recovery Specialist

Pay Status: Non-exempt, Full-time or Part-time

Rate of Pay: \$16+/hour

Job Description:

A Neuro-Recovery Specialist must be able to work with clients of all ages and abilities. Specialists must provide the highest quality of training in line with REACT's mission and core values. You are expected to stay up to date on the latest research and trends in spinal cord injury rehabilitation and other neurological conditions. For specialists with ACSM or NSCA certifications, you are expected to participate in continuing education courses to remain certified.

Job Functions:

- Proficiency in REACT's training approach and equipment
- Proficiency in REACT's basic and advanced modalities
- Conduct baseline and biannual evaluations for all clients
- Establish, implement and adapt individualized recovery programs
- Properly document all client sessions
- Consistently assess/monitor clients' progress, physical health, mental health and utilize opportunities for guidance and encouragement
- Identify the need for family/caregiver education to provide leadership and support
- Promote a positive and professional training environment
- Follow proper lifting techniques and safety setups
- Follow daily cleaning responsibilities to ensure a clean, safe gym
- Stay current in industry trends and advancements through research, conferences and advanced training opportunities

Qualifications:

- Bachelors in Exercise Science, Kinesiology or health related field; Master's degree a plus
- Excellent communication skills
- Ability to lift a minimum of 70 pounds and maintain a moderate to strenuous workload for sustained periods of time
- ACSM (RCEP, CIFT) or NSCA (CSCS, CSPS) certifications preferred
- Current CPR & First Aide certifications
- A passion for helping people with disabilities
- Experience working with spinal cord injuries or special populations a plus, but not required
