

October 2014

## Events

[Pack Expo](#), November 2-5, Chicago, IL - Booth #S-1733

[Fabtech](#), November 11-13, Atlanta, GA - Booth #1534

[Automation Fair](#), November 19-20, Anaheim, CA - Booth 426

[ATX Montreal](#), November 19-20, 2014, Montreal, Quebec Canada, Booth #2100A

[CareerTech VISION](#), November 20-21, Nashville, TN - Booth #531

## Product News

### **New! MA2010 Robot**

The [MA2010](#) arc welding robot features a reach of 2,010 mm, which is over 100 mm longer than the previous MA1900 model. Its payload has been greatly increased to 10 kg, and it has a larger 50 mm diameter through-hole in the wrist and upper arm. With these enhancements, the MA2010 easily supports the integration of welding sensors and push-pull torches, improving application flexibility and uptime. The MA2010 will be introduced at Fabtech.

### **New! PalletSolver**

[PalletSolver](#)™ is a revolutionary robotic palletizing software suite for Motoman robots. This dynamic package permits the setup of pallet patterns and robot motion on a PC so that the robot does not have to be taken offline for teaching. It enables quick changeovers without stopping production to validate pallet patterns and allows faster integration of a palletizing system by making it easy to configure and set up. PalletSolver will be introduced at Pack Expo.

## New! MPP3H Robot

The [MPP3H](#) is our newest delta-style robot for packaging, cartoning and kitting applications. The MPP3H features a parallel link arm configuration with a direct-driven rotary axis to simplify design and increase reliability. With a minimum installation area and zero footprint, this model is ideal for high-density installations, while providing a large working envelope. This robot will be introduced at Pack Expo.

## Y-Blog

### 3D Tour: Packaging Innovations at Pack Expo

Yaskawa is looking forward to Pack Expo to show you our exciting developments designed to simplify implementation and operation for picking, packing and palletizing automation projects.

We created a 3D tour of the packaging cells we will be featuring at this year's show. Even if you're not attending Pack Expo this year, [take the tour!](#)

## Partner Spotlight

If you plan to attend Pack Expo or Fabtech, be sure to stop by our partner booths to see Motoman robots!

### Pack Expo

[ARPAC](#), Booth #S-2948

[ATI Industrial Automation](#), Booth #N-6115

[Eagle Packaging Machinery LLC](#), Booth #S-1548

[HMC Manufacturing](#), Booth #S-2294

[Intelligrated](#), Booth #S-3536

[Massman Automation Designs LLC](#), Booth #S-3559

[Nalbach Engineering Co., Inc.](#), Booth #S-2747

### Fabtech

[Abicor Binzel](#), Booth #C1344  
[Dengsha America Corp](#), Booth # C2216  
[Dinse Inc.](#), Booth #C2037  
[Fronius USA LLC](#), Booth #C1954  
[Gudel Inc.](#), Booth #C1356  
[Komatsu America Industries LLC](#), Booth #B1547  
[Lincoln Electric](#), Booth #C2022  
[Robotiq](#), Booth #C2230  
[Weld Systems Integrators, Inc.](#), Booth #C1040
