Kajeet Choice
Education Broadband™ Program
More than Just Internet, It's Ensuring Equal Access for All Students

Kajeet enables schools and districts to provide off-campus connectivity for disadvantaged students -- without worry of abuse. The Kajeet SmartSpot® is a portable 4G LTE Wi-Fi hotspot each student can take home to complete required assignments and homework.

- Maximize the potential of your 1:1 or BYOD programs.
- Increase student performance.
- Level the digital playing field for economically disadvantaged students.
- Keep students focused on academic-related content.

Give your school or district complete control

With the *Kajeet CHOICE* Education Broadband program, schools and districts are in complete control of their off-campus, academic Internet connectivity.

The school or district team manages and administers the program through the patented, easy-to-use, **Sentinel® Administrative Portal** including:

- Policies and filters for student use for specific academic content
- Time of access restrictions
- Data consumption flags and site monitoring
- Program analysis and reporting
- And much more!

Simply choose the number of Kajeet SmartSpots need to serve your economically disadvantaged students and the amount of data required – its that easy!

Data is pooled and shared across all devices

Under this turn-key program, schools or districts purchase cost-effective, discounted data in bulk. The data pool is placed in the Sentinel account. The pooled data is available for use across all devices. Data does not expire and rolls-forward each month. Additional data and devices can be added to the account at any time.

No billing risks and no surprise invoices

- Pooled data for use across all devices
- Un-used data rolls over each month
- Data does not expire
- No monthly bills
- No overage charges
- No early termination fees
- Tiered pricing based on quantity volumes
- Under the Kajeet Choice Program, a district can choose to purchase their own hardware or lease Kajeet owned equipment.
- Summer deactivate available.

Pre-configured settings to get you started

The plan comes with two, pre-configured filter setting groups to help you get started: K-8 students and 9-12 students. Both groups block criminal and age-inappropriate content, high-bandwidth consumer sites, app traffic, and various protocol and security risks (malware, proxies, viruses, P2P protocols, IPSEC VPN, etc.). The 9-12 group allows some content not allowed in K-8 (sexual education sites, web chat, web email, etc.).

The portable Kajeet SmartSpot and Sentinel Portal allow for complete control of the student's off-campus academic Internet experience
