

School District Technology Survey Questions Related to Home Internet Connectivity

INTRODUCTION:

[MY SCHOOL DISTRICT] is currently evaluating our technology needs and how to better serve the families and students of the district.

For 1:1 Initiatives: Starting in the Fall 2016, we plan to provide every child at XYZ Middle School with a Chromebook for use at school and at home. A Chromebook requires a Wi-Fi connection to be used. We are interested in ascertaining whether you have a Wi-Fi network in your home capable of supporting a school-provided Chromebook or if your child has access to a Wi-Fi connection outside of home for a school-provided Chromebook?

For BYOD Initiatives: Starting in March, we will allow and encourage all students to bring in their own electronic devices (Tablets, Laptops, Smartphones, etc.) to use in school. Teachers will also begin assigning work in our XYZ Portal and ZYX Learning Tool for students to complete at home. Does your student have a device capable of accessing XYZ and ZYX? Do you have internet access at home capable of supporting daily use of XYZ and ZYX by your student on their device?

This survey should take 10-20 minutes to complete, and we thank you for your time. Your information and input are very important to us!

SAMPLE QUESTIONS:

Please select the school your child attends:

- Listing of schools

My student is in the following grade level (if you have more than one student, please provide one survey for each student)

- K-3
- 4-6
- 7-9
- 10-12
